## Part-Time Drone Instructor Consultant

*DRONE STEM Instructor for In-Person / Remote Learning with Moodle Learning Management Systems*

### **Drone Teachers for In-Person and Hybrid Teaching Using Moodle LMS**

Drone Camp Rebels is a unique Drone Education Program designed to produce safe and responsible drone pilots of any age. We work with schools and organizations throughout the tri-state area and beyond, to bring life-changing technology education to families and under-served populations here and throughout the world.

We are looking to find educators willing to be certified to teach our curriculum in-person, and utilize Moodle LMS platform to facilitate the curriculum in the classroom, as well as online.

Right now we are training instructors to deliver Drone Flight School and enrichment programs in-person and facilitate on-line/in-person Hybrid Learning for the Summer and Fall 2022. Interested applicants should download and complete the application at <https://dronecamprebels.com/become-an-instructor> and send it, along with your resume and cover letter, to [hello@dronecamprebels.com](mailto:hello@dronecamprebels.com).

### **What we offer:**

- Weekly teaching assignments where the teachers can earn \$20 to \$45 per hour based on experience.
- All training and materials needed to facilitate the existing Drone Camp Rebels curriculum.
- Free access to Drone Camp Rebels curriculum, app and upcoming 3-D Metaverse
- Drone Camp Rebels polo shirt

### **What we require:**

- Experience teaching or training.
- An investment of about 12 hours to become Certified. (Mandatory)
- Prior experience teaching children. (Ideally)
- An affinity for Technology (e.g., STEM, Coding, Drones, Robotics, etc.)

All applications will be taken into consideration.

Job Types: Part-time, Independent Contractor
